Last Delivery Date: October 29, 2010

Diamond Systems Announces End of Life for Pegasus Single Board Computer with On-board IDE Flashdisk

Due to the phasing out of low capacity NANDrive chips in small packages used on this model of Pegasus, Diamond Systems is making obsolete the PGS800-256-2G Pegasus single board computer.

All future orders for this Pegasus model will be filled on a first come, first served basis. In order for us to fulfill your orders for this model, orders should be placed with Diamond Systems as soon as possible. Only a firm order received on or before the last order date will guarantee the availability of this model to meet your needs.

Replacement Product
For future needs, customers should order the Pegasus single board computer without the on-board IDE flashdisk.

> PGS800-256   Pegasus SBC, 500MHz LX800, 256MB on-board DRAM, no on-board IDE flashdisk
